MASTERFULLY DESIGNED FOR THE VIEWS

A luxurious new community by Primont Homes, the two 12-storey buildings of MontVert make an intriguing architectural statement. Firmly postmodern in their demeanor, they both rise from bases of striking, narrow vertical lines that rise three storeys and then give way to walls of high-tech glass with long balconies that look out on the green surroundings.

Matching the sophisticated craftsmanship of the exteriors, the interior design has been inspired by the wide open spaces and sunlit parks of the lush nature havens close to MontVert. Generous utilization of natural materials such as stone, granite and wood bring warmth and glamour to this unique residence.
